

MODULE 03

STUDENT DOWNLOAD | SHOP-FLOOR WORKBOOK

Scope Breakdown System

A deliverable-by-deliverable breakdown sheet using the five-bucket system from the lesson.

You almost never lose money because the rate was five dollars off. You lose money because something real was forgotten.

Use this immediately after watching the module. The goal is not paperwork for the sake of paperwork. The goal is to slow down the quote just enough to stop missed cost, unclear responsibility, and margin loss before the job is won.

DO NOT DUPLICATE: This course download may not be copied, duplicated, shared, resold, posted, or distributed for any reason. Unauthorized duplication may result in a \$10,000 USD fine.

WORKSHEET

Deliverable List

Break the job into separate deliverables before estimating cost.

Final Missed-Cost Sweep

Use this before sending the number.

QUESTION	NOTES
What exists in real life that is not obvious on the drawing?	
What has to happen before fabrication can start?	
What has to happen after fabrication but before the customer can use it?	
What is being handled by someone else that still affects us?	

QUESTION	NOTES
What should be clarified before bid?
