

MODULE 04

STUDENT DOWNLOAD | SHOP-FLOOR WORKBOOK

Labour Estimating

A practical labour estimating worksheet that forces you to price the whole labour story, not just the obvious work.

Material is math. Labour is weather.

Use this immediately after watching the module. The goal is not paperwork for the sake of paperwork. The goal is to slow down the quote just enough to stop missed cost, unclear responsibility, and margin loss before the job is won.

DO NOT DUPLICATE: This course download may not be copied, duplicated, shared, resold, posted, or distributed for any reason. Unauthorized duplication may result in a \$10,000 USD fine.

WORKSHEET

Labour Bucket Worksheet

Do not estimate labour as one giant feeling. Break the work into the full story.

LABOUR BUCKET	EXAMPLES	ESTIMATED HOURS	NOTES
Touch Time	Cutting, drilling, fitting, welding, grinding, cleaning, bolting, installing		
Setup Time	Print review, sequence planning, jigging, first-piece layout, saw setup, prove-out		
Movement Time	Forklift, crane, flipping, staging, rehandling, loadout, site movement		
Control Time	Measuring, inspection, documentation, sign-off, trial fit, QA checks		
Friction Time	Awkward access, weather, waiting, other trades, tight tolerances, rush schedule, unknowns		
Total			

WORKSHEET

Shop Sequence Planner

DO NOT DUPLICATE: This course download may not be copied, duplicated, shared, resold, posted, or distributed for any reason. Unauthorized duplication may result in a \$10,000 USD fine.

Visualize the job moving through the shop before you trust the hours.

STEP	WHO TOUCHES IT?	EQUIPMENT NEEDED	RISK / FRICTION	HOURS
Receive / unload				
Cut / prep				
Fit-up				
Weld				
Clean / grind				
Finish / coat prep				
Inspect / load				

WORKSHEET

Field Labour Reality Check

Site labour changes quickly. Use questions before you price it clean.

QUESTION	ANSWER / ASSUMPTION
Is access clear and ready?	
Who provides layout, anchors, crane, lift, power, permits, and safety orientation?	
Is work regular hours or premium time?	

QUESTION	ANSWER / ASSUMPTION
How many mobilizations are assumed?	
Are field dimensions verified before fabrication?	
What other trades can delay us?	
What happens if the site is not ready?	

WORKSHEET

Labour Assumption Language Bank

Use clear assumptions when the hours depend on conditions.

SITUATION	SUGGESTED LANGUAGE
Site access	Price assumes clear access to the work area during scheduled installation. Waiting time caused by others is excluded.
Mobilization	Price includes one mobilization to site. Additional mobilizations caused by site conditions or delays by others are extra.
Hours	Price assumes standard working hours. Premium time, overtime, nights, or weekends are excluded unless specifically noted.
Dimensions	Price assumes field dimensions provided are accurate unless field verification is specifically included.
Equipment	Crane, lift, scaffold, and special rigging are excluded unless specifically listed as included.

WORKSHEET

Apply This To A Real Job

Use the space below to connect the lesson to an actual estimate you are working on.

APPLY THIS TO MY NEXT ESTIMATE	NOTES
One thing I will use immediately	

APPLY THIS TO MY NEXT ESTIMATE	NOTES
One question I need to ask before I price	
One assumption, exclusion, or clarification I should write down	
Extra notes / reminders
