

MODULE 05

STUDENT DOWNLOAD | SHOP-FLOOR WORKBOOK

Material & Costing Strategy

A material buyout and pricing worksheet that helps you price actual shop cost, not perfect drawing quantities.

The shop does not buy drawings. The shop buys steel.

Use this immediately after watching the module. The goal is not paperwork for the sake of paperwork. The goal is to slow down the quote just enough to stop missed cost, unclear responsibility, and margin loss before the job is won.

DO NOT DUPLICATE: This course download may not be copied, duplicated, shared, resold, posted, or distributed for any reason. Unauthorized duplication may result in a \$10,000 USD fine.

WORKSHEET

Fast Plate Weight Check

Use fast math as a sanity check, not as a replacement for supplier pricing.

PLATE THICKNESS	APPROX. LB/SF FORMULA	APPROX. LB/SF
1/4 in.	40.8 x 0.25	10.2
3/8 in.	40.8 x 0.375	15.3
1/2 in.	40.8 x 0.50	20.4
3/4 in.	40.8 x 0.75	30.6
1 in.	40.8 x 1.00	40.8

WORKSHEET

Material Protection Language

Use wording when pricing is exposed to supplier movement.

ISSUE	SUGGESTED QUOTE LANGUAGE
Price validity	Price is valid for the stated period and subject to supplier pricing and material availability at time of release.
Lead time	Lead time begins after receipt of written approval, release for fabrication, and material availability confirmation.
Substitution	Material substitutions require written approval before purchase or fabrication.
Escalation	Material escalation after quote validity or delayed release by others is excluded unless specifically included.
