

MODULE 09

STUDENT DOWNLOAD | SHOP-FLOOR WORKBOOK

Writing a Winning Quote

A quote template, proposal structure, wording bank, and final quote review checklist.

Your estimate builds the number. Your quote sells the number and protects the number after the job is won.

Use this immediately after watching the module. The goal is not paperwork for the sake of paperwork. The goal is to slow down the quote just enough to stop missed cost, unclear responsibility, and margin loss before the job is won.

DO NOT DUPLICATE: This course download may not be copied, duplicated, shared, resold, posted, or distributed for any reason. Unauthorized duplication may result in a \$10,000 USD fine.

WORKSHEET

Winning Quote Structure

Do not send naked numbers. Send a professional proposal.

SECTION	WHAT TO INCLUDE
Project information	Customer, project, quote number, date, revision, drawing numbers and revisions
Scope summary	Plain-English description of what you are providing
Inclusions	Exactly what is included in the price
Pricing breakdown	Logical buckets such as material, fabrication, finish, install, freight, equipment, tax
Alternates	Cost-saving, schedule-saving, or scope options
Assumptions	Conditions the price is based on
Exclusions	What is not included
Schedule / lead time	Start conditions, fabrication duration, approval/material dependencies
Payment terms	Deposit, progress billing, final payment, retainage, overdue terms
Validity	How long the price is good for
Change-order language	How changes, delays, or extra work are handled

WORKSHEET

Inclusion / Exclusion Builder

Clear language prevents expensive misunderstandings.

INCLUDED	EXCLUDED / BY OTHERS

WORKSHEET

Assumption Bank

Use assumptions when the price depends on specific conditions.

AREA	SUGGESTED LANGUAGE
Access	Price assumes clear access to the work area during scheduled installation.
Drawings	Price is based on drawings listed in this quotation. Changes or revisions after quote date may affect price and schedule.
Schedule	Lead time begins after written approval, release for fabrication, and receipt of required information.

AREA	SUGGESTED LANGUAGE
Site readiness	Price assumes site is ready for installation with no delays caused by others.
Freight	Delivery is included/excluded as noted. Additional deliveries caused by others are extra.
Taxes	Taxes are included/excluded as noted in the pricing section.

WORKSHEET

Final Quote Check

Before you send it, ask whether you would be comfortable handing the quote to the shop, PM, and customer tomorrow.

CHECK	COMPLETE? / NOTES
Drawing numbers and revisions listed	
Supply only or supply and install is clear	
Included scope is listed	
Exclusions are listed	
Assumptions are defined	
Freight, equipment, subcontractors, taxes, and alternates are handled	
Payment terms, validity, schedule, and change-order language are included	
Math and wording have been proofread	

WORKSHEET

Negotiating Without Cutting Margin

Use scope choices instead of random discounts.

CUSTOMER REQUEST	BETTER RESPONSE
Can you take money off?	Yes, if we remove or change scope. For example: delivery by others, finish changed, install excluded, or schedule adjusted.
Another bidder is lower.	Let's compare scope, assumptions, finish, delivery, install, and schedule so we are looking at the same job.
Can you match this number?	We can review options, but we do not want to remove protection the job needs to be done correctly.

WORKSHEET

Apply This To A Real Job

Use the space below to connect the lesson to an actual estimate you are working on.

APPLY THIS TO MY NEXT ESTIMATE	NOTES
One thing I will use immediately	
One question I need to ask before I price	
One assumption, exclusion, or clarification I should write down	
Extra notes / reminders
